

CPS209 Lab 6

Inheritance & Collections

Preamble

In this lab you will practice extending Java collections.

Homework to Complete (Submit on D2L):

See the following files for what to complete:

`SpySet.java`

`ArrayListAccessCount.java`

The method descriptions are found inside these Java files.

Reminder

- Your methods should be SILENT. Print statements are fine for testing and debugging but remove them from your code before you submit.
- No method should take longer than a couple of seconds to pass the tester. Methods that take too long will be rejected. Writing efficient code is an important part of this course.

Submission

Labs are to be completed and submitted *individually*. Submit your completed **SpySet.java** and **AccessCountArrayList.java** on D2L, under the submission for Lab 6.
